Creative software engineer with the ability to pick up new languages and technologies as needed. Prior to being a software developer, I worked as a director of transportation for an Atlanta Destination Management Company where I managed complex logistics programs for Fortune 500s visiting the Atlanta area, providing clients with support and consultation for their specific needs.

EXPERIENCE

Developer in Residence (Teaching Assistant)

DigitalCrafts, Atlanta, GA | Oct. 2019–Present

• Assist lead senior developer in educating & mentoring students in HTML, CSS, JavaScript, Node.js, PostgreSQL, and React/Redux.

• Responsibilities include regular student check-in's, personalized coaching, lead an hour of instruction every Friday covering debugging, algorithms, white-boarding, and interview prep.

Immersive Full-Stack Web Developer Coding Bootcamp

DigitalCrafts, Atlanta, GA | Feb. 2019–May 2019

• 16-week, hands-on software development program covering HTML, CSS, Bootstrap, JavaScript, Node.js, Express, PostgreSQL, React, Redux, and AWS. My DigitalCrafts projects include:

  - **Flamingo** flamingo.ericmauldin.info – team project – React, Node.js full stack web application utilizing Express, PostgreSQL, Vanilla JavaScript, Materialize, CSS, Axios. Flamingo is a mobile-first, digital interpretation of a familiar way of showing trips across the globe. Users can quickly add, delete and edit past and future trips, creating and saving travel experiences.

  - **C's Recipes** cs-recipes.ericmauldin.info – A personal React project built out of my fiancée's need to manage her recipes. The idea was to build a simple interface to allow the user to add, search, view, edit and delete recipes. The backend is built using node and express accessing a PostgreSQL database.

Director of Transportation

Presenting Atlanta, Atlanta, GA | Sept. 2011–Feb. 2019

• Coordinated complex transportation programs for Fortune 500s

• Consulted clients and Presenting Atlanta's sales team concerning all transportation needs
